These cries for help follow blunt statements of China's dangerous plight published abroad, including remarks by Generalissimo Chiang Kai-shek, quoted in Washington, that China will fall to the Communists unless direct and liberal military aid, plus a loan, are forthcoming.

Now Madame Chiang has made an appeal to the United States, in which she argued that America will ultimately be the loser if China becomes Communist.

HOW DOSSESSES. The latest reports indicate that the battle, particularly East of Hsuchow, has become grave, if not critical for the Nationalists. The carlier flood of official claims has been followed by "victories," which in some cases set the Nationalist lines back instead of ferward.

Nearly 700 applications have been received for accommodation in the 35 vacant private residential premises seized by the Government on the Island and Mainland.

They are now being studied by the Requisitioned Properties and Allocation Committee which hopes to have decided on allocations by the end of this week.

The chairman of the committee, Mr. D. Benson, and the ecretary, Mr. T. S. Whitley, have already checked about 30 cases and will continue until they find which of the letters are genuine.

Mr. Whiteley sald a few writers had over-stated facts but most were desperately in need of accommodation.

In Kowloon they had inspected one Chinese tenement and found a married couple with two daughters, one aged two and the other 20 and two boys, one aged 13 and the other .14, all sleeping in two bunks under on unlighted staircase. The bunks were each 4 feet

Water Supply To Be

Restricted

The attention of the public is invited to a notice by the Water Authority imposing certain restrictions in the water supply as from December 1, 1948;

Although at the end of October 1948 there was some 309 million gallons more water in storage due to the late rains as compared with a similar period in the previous year, daily consumption during October 1948 has been 1.9 million gallons more than in October 1947.

During the first nine days in November 1948 opliection from streams was still conalderable, but it was less than half the average daily consumption of \$3 million gallons over the same period.

The authorities therefore consider, in view of the gradual! decrease now to be expected from stream sources, that it may be possible to avert any severe restrictions at a later date by the early imposition of the restrictions how Imposed.

Combined Action In S.E. Asia Suggested

London, November 23. The Times, in an editorial today, called for a conference of British, French and Dutch representatives to share the lessons of Communist outbreaks in South East Asia and to consider constructive action to deal with the problem. Saying that the shock of Com-

munist blows in China has been felt throughout the countries of South East Asia, the Times wrote: "In collating experiences from different regions, the conference of diplomatic representatives and colonial governors, just concluded in Malaya, has set an example which could profitably be follow-

ed more widely. "The next conference need not only be British. A meeting with French and Dutch representatives from Indochina and Indonesia would provide for a valuable sharing of the lessons learned and for a survey of the political and economic measures needed to deal constructively with the whole. problem.

"The evident danger is that time when, on the whole, they were losing the initiative and were being worn down by the Government's counter-measures. The Communists had sustained most notable setback in Malaya. the Times said, adding: "It was a formidable threat to the Western ing by Mr. M. E. Petit, Hong dered progress to genuine liberty.

Washington, November 22. Mr. D. Worth Clark, consultant to the Senate Appropriations Committee, who recently returned from Asia, said today that he favoured all-out aid to China and believed such aid could save the Nationalist Government.

The disclosure went beyond the official report released yesterday, in which Mr. Clark said the actual decision whether or not to give all-out aid to China was a matter for the United States Government, not for him, to decide. in unifying China had it not

Mr Clark emphasised that the [opinions he expressed were personal and were based on the result of his observations, made while studying the China situation on behalf of the Senate appropriations Committee.

Britain Blanketed By A Pea-Souper Fog London, November 22.

A thick fog lay across almost the whole of Britain today, bringing shipping to a standatill on some of the country's most important rivers, dislocating air services to and from Europe and America, and seriously delaying road and rall traffic. From many parts of the country came reports of "Visibility Nil." At London and Northelt Airports, radar was used to combat the fog. Nineteen people were injured in road accidents in thick fog in the Midlands city of Leicester.

A few ships, which left dock outward bound from Glasgow had to berth again almost immediately. Many trawlers were fogbound in Northern ports. In the Straits of Dover by contrast there was bright sunshine. Eight British European Airways planes were delayed in take-off from Northolt Airport but no service was cancelled.-Reuter.

Here is a rapid and unusual way of bringing that remarkable pain-easer ASPIRIN to the very spot that hurrs. Whether it is bruise, sprain, strain, swelling or inflammation, Radian B, the ASPIRIN spirit liniment, will bring ease and comfort to the affected area. This unique remedy combines ASPIRIN with other active principles and aromatic essential oils. Sprinkled on the affected part and gently massaged, it is speedily absorbed through the skin, and penetrates deep down to the affected tissues and nerves. The benefit is felt immediately, inflammation is relieved, and swellings swiftly reduced.

RADIAN B can be applied without fear of aggravation to the sensitive area, and has an agreeable odour that does not linger.

Owing to its "non-oily" character and complete absorption, this colour-less more-than-a-liniment, cannot soil or stain the ciothing. Its splendid all-round properties and sot uses make Redem B an invaluable addition to your medicine cabinet. It can also be confidently and effectively used (1) diluted, as a gargle \$ (2) for insect bites \$ (3) for minor burns \$ (4) as an inhalant for coughs and colds, and (5) as a strong and gentle antiseptic.

Canada To Get Ready

Ottawa, November 22. The Defence Minister, Brooke Claxton, today revealed that Canada's military officials have begun an inventory to determine the equipment and material which Canada's fighting forces would need for a year of war.

The inventory is preliminary to the stockpilling of needed war materials, to be carried out as soon as circum. stances of raw materials, manpower and plant facilities permit .-- United Press.

Brilliant Hong Kong Win Over Malayans

Cup Match To Be Replayed

York, November 22. A Football Association Commission meeting here today upheld the Bishop Auckland Club's protest against the result of their fourth qualifying round of the Football Association Cup Tie against Scarborough on the ground that Scarborough fielded two ineligible players.

They ordered that the match be replayed at Bishop Auckland on Saturday. This means that the Rhyl versus Searborough Cup first round proper match will not be played on Saturday.-Reu-
